Journal of Software

Volume 10, Number 7, July 2015

- A Metamodel for Hybrid Access Control Policies** **784**
Jamal Abd-Ali, Karim El Guemhioui, Luigi Logrippo
- A Study on Software Development Month Effort** **798**
Yinlong Liu, Yong Wang
- E-Government Portals Maturity Models: A Best Practices' Coverage Perspective** **805**
Abdoullah Fath-Allah, Laila Cheikhi, Rafa E. Al-Qutaish, Ali Idri
- A Fast Method of Detecting Overlapping Community in Network Based on LFM** **825**
Yanan Li, Zhengyu Zhu
- Design and Implementation of Mobile Electronic Nautical Chart Information System Based on IOS** **835**
Zijie Jiang, Zhongliang Cai, Hui Zhou, Nian Hui
- Acknowledging the Effect of the Depreciation of Tangible and Intangible Benefits upon the Evaluation of E-Gov Projects** **842**
Marcelo Carvalho Fernandes, Antonio Juarez Alencar, Eber Assis Schmitz, Monica Ferreira da Silva, and Rigel Procópio Fernandes
- Energy-Aware Load Balanced Scheduler for Cloud Computing to Improve Quality of Service** **869**
N. R. Ram Mohan, E. Baburaj
- Model Driven Software Product Line Process for Service/Component-Based Applications** **881**

Sami Ouali, Naoufel Kraïem, Zuhoor Al-Khanjari, Youcef Baghdadi

Agile Scalability for Large Scale Projects: Lessons Learned

893

Hina Saeeda, Fahim Arif, Nasir Mehmood Minhas, Mammona Humayun

Test-Driven Approach for Safety-Critical Software Development

904

Onur Özçelik, D. Turgay Altılar

Streamlined Workflow for 3D Modeling with Animated Characters

912

Wei-Chieh Chang, Wei-Min Jeng
