Journal of Software

Volume 12, Number 1, January 2017

- An Efficient Method for Enhancing Reliability and Selection of Software Reliability Growth Model through Optimization Techniques** **1**
Mallikharjuna Rao K., K. Anuradha
- Software Instability Analysis Based on Afferent and Efferent Coupling Measures** **19**
Danilo B. Santos, Ant nio M. P. Resende, Eudes C. Lima, Andr P. Freire
- Design and Implementation of Non-layered 3-Dimensional Orebody Modeling System** **35**
Jiming Yao, Yajing Liu
- IoT-Based Smart Health Unit** **45**
Syed Muhammad Waqas Shah, Maruf Pasha
- Improved AdaBoost Algorithm for Robust Real-Time Multi-face Detection** **53**
Xin-Chao Zhao, Jia-Zheng Yuan, Hong-Zhe Liu, Jian-She Zhou
- An Improved K-means Algorithm Based on Structure Features** **62**
