Journal of Software

Volume 12, Number 12, December 2017

A Comparative Study of X ray Diffraction Pattern Obtaining Methods for Portable Diffractometer **914**

Fang Gong, Xiaoyong Ni, Dianhong Wang, Xingfeng Guo

Comparative Analysis of Meta Learning Algorithms for Liver Disease Detection **923**

Maruf Pasha, Meherwar Fatima

A Kinect Rehabilitation Training System Based on Improved DTW-RANSAC Evaluation Model **934**

Xiaonan Shi, Zitong Wang

An Iterative and Incremental Data Quality Improvement Procedure for Reducing the Risk of Big Data Project **945**

Sen-Tarng Lai

Using Factor Analysis to Study the Critical Success Factors of Agile Software Development **957**

Abdullah Aldahmash, Andrew Gravell, Yvonne Howard

An Empirical Approach to Algorithm Analysis Resulting in Approximations to Big Theta Time Complexity **964**

John Paul Guzman, Teresita Limoanco
