## Volume 11, Number 7, July 2016

- ANN Predicted Apps-Usage Aware Linux Scheduler for Asymmetrical Multi Cluster SoC** **623**  
Hou Zhao Qi Rex, Jong Ching Chuen, Andreas Herkersdorf
- Digital Forensic Analyses of Web Browser Records** **631**  
Erhan Akbal, Fatma Güneş, Ayhan Akbal
- Merging CLU and PSR Methods for Accurate Prototype Selection** **638**  
Shih-Wen Ke, Dewi Wulandari
- JAMEJAM: A Framework for Automating the Service Discovery Process** **646**  
Islam Elgedawy
- Test Case Reduction Using Data Mining Classifier Techniques** **656**  
Ahmad A. Saifan
- Determination of the Optimal Allocation of Testing Resource for Modular Software Reliability Growth Using LINGO** **664**  
N. Ahmad, M. G. M. Khan
- A Model Guided Security Analysis Approach for Android Applications** **677**  
Yan Zhang, Zhoujun Li, Dianfu Ma
- Research on Model Beginning Standard of Multi-objective Evolutionary Algorithm Based on Entropy** **685**  
Qiong Yuan Guangming Dai

**Qstack: Multi-tag Visual Rankings**

Phi Giang Pham, Mao Lin Huang

**695**

**Service Development Life Cycle for Hybrid Cloud Environments**

Hong Thai Tran, George Feuerlicht

**704**
