Journal of Software

---

## Volume 12, Number 6, June 2017

- Towards Understanding Developers' Collaborative Behavior in Open Source Software Ecosystems** **393**  
Yaxin Liu, Peng He, Gaoyan Wu, Yilu Li
- A Systematic Method for Detecting Parallelized Software Bottlenecks and Suggesting Modifications: The Case of the Expectation Maximization Algorithm** **406**  
Otávio Cordeiro Siqueira de Oliveira, Marco Túlio Chella, Hendrik Teixeira Macedo, Leonardo Nogueira Matos
- RDB2 Model: A Relational Databases Retro-Design Tool Enriched by the Extraction of Constraints** **426**  
Widad Jakjoud, Mohamed Bahaj
- Enhancing the Process of Requirements Prioritization in Agile Software Development — A Proposed Model** **439**  
Mohammad Alkandari, Asma Al-Shammeri
- Managing Inconsistencies in UML Models: A Systematic Literature Review** **454**  
Driss Allaki, Mohamed Dahchour, Abdeslam En-nouaary
- Improving the Efficiency of the Task Scheduling Process in Grid System Based Quantum Technology** **472**  
Ahmad Ali Al-Zubi
- Effects of Population, Generation and Test Case Count on Grammatical Genetic Programming for Integer Lists** **483**  
Hakan Ayral, Songül Albayrak
